

Appendix 2 ECP User Interface Prototype

A2.1 Introduction

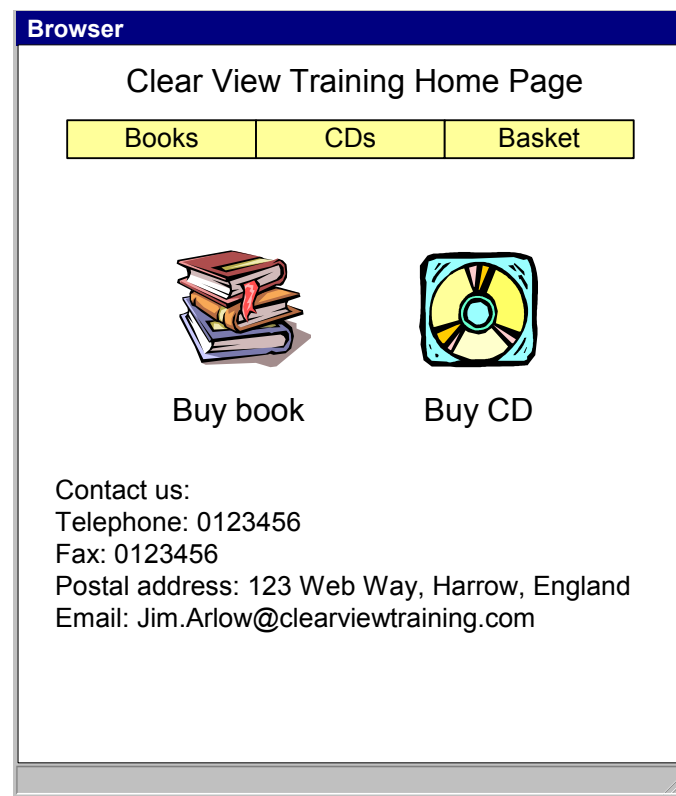

The ECP UI prototype shows some of the expected web pages that will form the basis of the user interface of the ECP. This prototype is very much a first draft - it is incomplete and inconsistent and was produced very quickly in Microsoft Visio to give the stockholders some sort of idea about what the ECP would finally look like. It is quite typical of the sort of document that might be available to you at the beginning of analysis.

In the next few sections, we document each of the screens in the prototype.

A2.2 Clear View Training Home Page

This is the home page for the site.

Figure 1:

A2.3 Books

This page allows the user to select a category of books to view, or to perform a search on the whole catalogue.

Figure 2:

A2.5 Your Selection

This is the type of page the user would see if they selected a particular book from the Computers page.

Figure 4:

Browser			
Home	Books	CDs	Basket
	UML and the Unified Process		
	Jim Arlow, Ila Neustadt		
	Addison Wesley, ISBN 0201770601		
	\$44.99	<input type="button" value="Add to basket"/>	
<p>Comments: *****</p> <p>This book meets a need that many other books have not really fulfilled. There has been a need for a comprehensive guide that bridges the theoretical world of modelling and the practical aspects of delivering a solution.</p>			

A2.6 Your Basket

The user's shopping basket. This contains a list of the products that they have selected.

Figure 5:
